

TOP TEN REASONS TO USE **XTREME POWER**

Six Year Warranty

Our UPS electronics and batteries are covered for 6 years on our Lithium P91 UPS and up to 5 years on other models.

Deeper Savings

Xtreme Power UPS systems allow for up to 30% in savings over comparable products from APC, Vertiv or Eaton.

Quick Shipping

Same-day shipping is available from our distribution centers in Denver and Raleigh.

Excellent Customer Support

Located in Denver, CO and Necedah, WI, our Customer Support Teams provide comprehensive and immediate customer/technical support.

World's Smallest Lithium Ion UPS

Xtreme power J60's lithium ion batteries provide protection for up to 10 years and 2000 discharges.

UPS Systems from 350VA to 140kVA

Our UPS are available in standby, line-interactive, online and isolated online topologies.

Hot Swappable UPS

The XBDM enables a full wrap-around bypass of rack mount UPS which means the UPS can be repaired or replaced without loss of power to the protected load.

UPS Selector

With a few simple clicks, a customized runtime solution can be provided for all your critical power needs.

Up to 99% Efficiency

Optimize your Power Usage Effectiveness (PUE) through the ECO mode feature which is standard on our X90, M90U, P91, T91, V80 and P80 UPS systems.

24 Hour Battery Runtimes

Several Xtreme Power models have capabilities of up to 24 hours of runtime using extended battery packs.
